Hi! I've started working on the user authentication module for your e-commerce app.
10:30 AM
Great! Please make sure to implement two-factor authentication as discussed.
10:35 AM
I'm using Firebase Auth with SMS verification. I'll also add email verification as a backup option.
10:40 AM
Perfect. When do you think this module will be ready for testing?
10:45 AM

Hi Ahmad! Thanks for the quick turnaround on the authentication module.
2:30 PM
You're welcome! I've implemented the basic email/password authentication with email verification.
2:35 PM
That's exactly what we needed. The code quality is excellent and the documentation is very clear.
2:40 PM
Thank you! I always make sure to include comprehensive documentation. Is there anything specific you'd like me to add or modify?
